Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in response to applicant's arguments filed on October 10, 2006.
2. Claim 1 is pending.
3. All prior rejections are maintained for the reasons set forth in the previous office action.

Response to Arguments

4. Applicant's arguments filed regarding the Vigo references have been fully considered but they are not persuasive.

The declaration under 37 CFR 1.132 filed October 10, 2006 is insufficient to overcome the rejection of claim 1 based upon the Vigo et al. articles "Multipurpose woven cotton and cotton/polyester blends containing crosslinked polyols affixed by a low temperature cure" and "Improvement of various properties of fiber surfaces containing crosslinked polyethylene glycols" and the Vigo et al. patents US 4,908,238 and US 4,851,291 as set forth in the last Office action because: the declaration does not provide which Vigo/Bruno protocols were used in the declaration comparative experiments. The Vigo patents and research articles recite a variety of methods and the methods utilized were not clearly identified in the declaration. The declaration does not

identify the "mild detergent" used in the protocol and does not specify if a variety of commercially available phosphate detergents were used as per the teaching of Vigo. Furthermore, the declaration is generic to testing nonwoven fabrics whereas the Vigo references identify specific substrates such as cotton, etc. The declaration is not commensurate in scope with the instantly claimed method as the method steps recited on page 1 of the declaration include washing in mild detergent and then neutralizing. The washing in mild detergent is not a limitation in instant claim 1.

Due to the generic disclosures of following the protocols of the Vigo/Bruno patents and technology, of nonwoven fabrics and of mild detergents as well as the declaration method of paragraph 2 not being commensurate in scope with the method of claim 1, the declaration is insufficient to overcome the rejections over the Vigo articles and patents. The rejections are therefore maintained.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
